# Why choose us?

Dr Mathers understands that little people have their own unique needs, and his diagnostic and treatment protocols are designed to suit those needs.

All treatment provided is designed with the safety, comfort, tolerance and wellbeing of the child in mind. Parents are regularly surprised by how gently treatment can be delivered.

Details and care options will be explained as the consult progresses and treatment will only proceed when parents are completely comfortable.

Contact Sure Start Health today to schedule an assessment to see if Chiropractic can help your child.
